Power BI

CAREER OBJECTIVE

Aspiring Data Analyst seeking a Data Analytics Internship to apply my knowledge of Excel, SQL, Python, and Power BI in real-world projects. Eager to learn from industry professionals, gain practical experience, and contribute to data-driven decision-making while developing my analytical skills.

TRAINING

Data Analytics Training – Encode AI

Feb 2026 – Present (Ongoing)

- Currently undergoing comprehensive training in Data Analytics.
- Learning Advanced Excel, SQL, Power BI and Python.
- Working on data analysis, dashboard creation and real-world case studies.
- Building practical projects to improve analytical and problem-solving skills.

INTERNSHIP

AI Internship – College Project

Aug 2025 – Jan 2026

- Completed an AI internship as part of my college curriculum.
- Worked on a project involving AI concepts and real-world applications.
- Gained hands-on experience in data collection, preprocessing, model building and analysis.
- Successfully completed the internship and learned practical skills.

PROJECTS

1. Student Performance Analysis using Excel (Personal Project)

- Analyzed student marks and attendance data using Microsoft Excel.
- Used formulas, Pivot Tables, Charts and Conditional Formatting.
- Created a simple dashboard to analyze student performance.
- Identified top-performing students and subject-wise results.

2. Sales Data Dashboard using Power BI (Personal Project)

- Built an interactive Power BI dashboard using a sample sales dataset.
- Created KPIs, charts and slicers for data visualization.
- Analyzed sales performance and business trends.
- Presented data in a simple and interactive dashboard.

3. Student Result Management System using Python (Personal Project)

- Developed a basic Python program to manage student records.
- Added student names and marks.
- Calculated total marks, percentage and grade.
- Displayed student results using basic Python concepts.
